## General Information and Instructions for Holders of Fishing Concessions

#### **Purpose**

This logbook is to be used when trawl fishing in Commonwealth Fisheries. It is designed to provide a continuous record of trawl fishing operations undertaken by Commonwealth fishing concession holders

Accurate data collected in this logbook is essential to provide information for research into and management of Australian trawl fisheries.

## Important Information and Instructions

#### Completing the logbook

- This logbook must be completed for every day that the fishing concession is in force, regardless of whether or not fishing takes place on that day unless the boat nominated is in port (see the "How to Complete" section).
- This logbook should be completed from the day the boat leaves port till the day the boat returns to port
- The concession holder or authorised agent who is signing the log page must be the master of the boat (skipper) when this fishing operation took place.
- If there is more than one master of the boat (skipper) on board the boat for any one trip, then each skipper must complete and sign a separate log page for the fishing operations for which they had control.
- All logbook information must be recorded on a shot by shot basis and details for the last day of the trip must be recorded before the boat docks at the end of each trip.
- No carbon paper is required when completing these forms. Please use a ballpoint pen and place the fold-out flap under the blue page to prevent marking the next set of forms.

#### Location of the logbook

- This logbook must be kept on board the boat that is nominated in respect of the fishing concession and named on the front of the logbook during fishing operations.
- This logbook must remain within a 50 metre radius of the boat.

#### Who should use this logbook?

- The holder of the fishing concession is responsible for ensuring that this logbook is completed and that it is certified as complete and correct.
- The master of the boat (skipper) must be the person completing this logbook. The master of the boat (skipper) must be an authorised agent for the concession holder, this authorisation must be in place before any fishing operations can take place. To authorise an agent the concession holder is required to complete an AFMA approved AA form, for further details contact AFMA on 1300 723 621.

#### **Submitting logsheets**

This logbook contains numbered pages in duplicate which are referred to as logsheets. Original copies must be returned to AFMA in date order in either the reply paid envelope provided or posted to:

The Logbook Co-ordinator Australian Fisheries Management Authority BOX 7051

Canberra Business Centre ACT 2610

Original copies of logsheets must be returned within 3 calendar days of the consignment being unloaded. For quota managed fisheries and/or fisheries that require the completion of a catch disposal record (CDR), logsheets must be returned with the CDR for that trip.

All duplicate copies of logsheets should be retained.

If you are requested by AFMA to supply a Nil Return, the return must be sent to AFMA within 3 calendar days of you receiving the request, using the same methods as above.

#### **Penalties**

Concession holders and authorised persons completing this logbook on their behalf are advised that:

- a failure by a concession holder to ensure the completion of the logbook in accordance with these instructions;
- (ii) the giving of false or misleading information in the logbook by the concession holder or an authorised person completing the logbook on their behalf; or
- (iii) the recording or communicating by the concession holder or anyone else of information in a logbook concerning the affairs of another person, or the giving by the concession holder or anyone else to another person a part of a logbook in which information is recorded, (unless the recording, communicating or giving is done in accordance with the Fisheries Management Act 1991, Fisheries Administration Act 1991 or the Fisheries Management Regulations 1992 or an order of court, tribunal or a person authorised to receive evidence) may constitute serious offences under Commonwealth laws.

Concession holders are also advised that failure to ensure the completion of the logbook in accordance with the instructions may lead to suspension or cancellation of their concession.

#### Help Available

There is an example of a completed logsheet and further information and instructions about how to complete the logbook at the front of this logbook. If you have any questions or problems, please contact an AFMA Logbook Officer on (02) 6225 5555 (free call 1300 723 621).

Australian Fisheries Management Authority EFT01C March 2016

#### **Please Remember**

 This logbook should be on your vessel and completed daily while you are fishing. The details for a shot must be recorded before hauling the next shot. Details for the last shot of the trip must be completed before the vessel enters port.

| For | Form (Processing) Codes               |  |  |  |  |  |  |  |  |
|-----|---------------------------------------|--|--|--|--|--|--|--|--|
| W   | = Whole                               |  |  |  |  |  |  |  |  |
| HG  | = Headed and Gutted                   |  |  |  |  |  |  |  |  |
| GG  | = Gilled and Gutted                   |  |  |  |  |  |  |  |  |
| F   | = Filleted                            |  |  |  |  |  |  |  |  |
| G   | = Gutted                              |  |  |  |  |  |  |  |  |
| TR  | = Trunked (shark)                     |  |  |  |  |  |  |  |  |
| FB  | = Trunked and belly flaps off (shark) |  |  |  |  |  |  |  |  |
| TA  | = Tails (lobsters, bugs)              |  |  |  |  |  |  |  |  |

| DISCARD CODES             | Explanation   |
|---------------------------|---|
| MP = Market Price         | Marketable species but it was considered uneconomical to land on this occasion    |
| <b>US</b> = Under Size    | Fish is below a regulated minimum size or it is a size that makes it unmarketable |
| <b>UM</b> = Un-Marketable | Market place considers it to be inedible  |
| <b>DM</b> = Damaged       | Unmarketable due to damaged during capture or hauling                             |
| TL = Trip Limit           | Fish marketable but trip limit already reached                                    |
| MD                        | Species listed as migratory under the EPBC Act was brought up dead and discarded  |
| MA                        | Species listed as migratory under the EPBC Act was brought up alive and released  |
| LD                        | Lice damage   |
| IN                        | Inedible  |
| NQ                        | No quota  |
| CC                        | Cookie cutter damage  |
| SB                        | Seabird damage  |
| SD                        | Shark damage  |
| SQ                        | Squid damage  |
| TW                        | Toothed whale damage  |

## Eastern Finfish Trawl Daily Fishing Log – EFT01C Instruction Page

#### **Vessel, Gear and Contact Details**

To be completed by the Concession Holder or Authorised Person and submitted to AFMA within 14 days of receipt of the logbook. A second Vessel, Gear and Contact Details Form is located in the middle of the logbook. Please complete and submit this form if any of the vessel and/or gear details change, or if the contact person for the vessels logbook has changed

#### Catch and Effort Log Page

When fishing, record details on a shot by shot basis.

#### Date

Record the date when shot(s) were conducted.

#### Page Header

Enter the **Boat Name** and **Distinguishing Symbol** here. Record your AFMA Boat ID (if known), if you record your Boat ID there is no need to record your Boat name or Dist Symbol on each page of the logbook, just record them on the first page of each book and anytime the boat name, dist symbol or boat ID changes. You must ensure you are using the correct AFMA Boat ID for the boat that you are completing these log pages for, and that the Boat ID is written clearly, if the Boat ID is not written correctly or clearly AFMA will request you continue to record the Boat Name and Dist Symbol on each page. If you are not sure of your AFMA Boat ID please contact AFMA on 1300 723 621.

#### Non-Fishing Period

Whilst at sea if you are not fishing for a day or longer please specify the date/s during which you did not fish. Do not use single pages for single sequential non-fishing days.

#### Non-Fishing Code

Circle the reason why you were not fishing during the indicated dates. If you were operating in another fishery please write in the name in the space provided.

#### Trip Dates

On the first sheet used for a trip record the date of departure, on the last page used for a trip record the date of return.

#### **Trawl Details**

#### **Fishery**

Circle the relevant code to indicate which fishery you are operating in.

#### Gear number

This is the number you allocated to different ground gears and nets on your vessel, gear and contact details sheet. Record the corresponding number of the ground gear and net you are using for that shot.

#### Cod end mesh size/ mesh orientation

Record the mesh size and indicate the orientation of the mesh by circling either  ${\bf S}$  for square or  ${\bf D}$  for diamond.

#### **Ground gear height**

Record the height of the largest part of the ground gear (ie. the largest bobbins or disks).

#### Trawl method

Circle the relevant code (one from each section) to indicate what trawl method you are using. A midwater trawl is considered to be a trawl where the gear intentionally does not go near the bottom for the duration of the tow.

#### Start and end shot times

Start times are when the gear setting has stopped. End time is when hauling begins. Please record all times using the 24 hour clock (eg. 1:00pm = 1300).

#### Start and End position

Start position is the position of the vessel when the gear setting has stopped. End position is the position of the vessel when gear hauling begins.

#### Average trawl depth

This is the average depth at which the net is towed during a shot. Please circle **m** (metres) or **fath** (fathoms) depending on which unit you are using.

#### Average temperature

This is the average temperature recorded at trawl depth during the shot. Please record it in degrees celsius. If you do not have a net monitor that records temperature put a dash in this space.

#### Shot valid

Circle 'Yes' if the gear was deployed successfully or 'No' if you had gear problems, ie. net was pinned up.

#### Eastern Finfish Trawl Daily Fishing Log - EFT01C

## **Instruction Page (Continued)**

#### **Catch Details**

The weight of all **retained quota species** must be recorded accuratley in kilograms on a shot by shot basis. The weight of all **discarded quota species** must also be recorded accurately on a shot by shot basis using the appropriate form code (see fold out flap). All quota species must be recorded separately and not mixed with any other species.

The weight of all **retained non-quota species** must be recorded accurately in kilograms on a shot by shot basis. Where the total retained weight of a single non-quota species is less than 10kg, this species may be combined with another non-quota species of less than 10kg and recorded as 'mixed fish'. The common names of species retained but not pre-listed should be recorded in the blank spaces provided. If you run out of space, cross out the names of pre-listed species you did not catch and write in the new names.

Fish taken in NSW state waters must also be recorded in this logbook.

#### FOR CTS TRAWL ONLY:

The weight of individual **discarded non-quota species** must be recorded **on a shot by shot** basis either:

- separately and not mixed with any other species; or
- combined and reported in the appropriate species group provided at the bottom of the page.

#### **Listed Marine and Threatened Species**

Please circle **YES** or **NO** to indicate if your gear came into contact with or caught a listed marine or threatened species.

If you did have an interaction with a listed marine or threatened species please complete the Listed Marine and Threatened Species Form at the back of the logbook and submit it with the relevant log page.

#### **Comments**

**Comments** - This section is provided for any further information that you think may be important such as: gear failure, weather, damaged fish, size of fish, loss of catch to seals etc.

#### Signature and Date Box

Each logsheet requires the date and signature of the master of the boat (skipper). The signature verifies that the information recorded in the logbook is an accurate record of the fishing operation including estimated landed weights.

Years of experience, please record the years the master of the boat (skipper) signing this log page has been a master of a boat (skipper). If the same skipper is signing more than one page for a trip, this only needs to be completed once per trip.

### **Ground Gear Types**
