Great Australian Bight Trawl Fishery Catch Disposal Record (GAB2C) Fisheries Management Act 1991

About this Catch Disposal Record

- This GAB2C Catch Disposal Record is designed to record verified information about fish catches
 - it does not replace the requirement to complete daily catch and effort fishing logbooks.
- Information supplied on this Catch Disposal Record will be used for fisheries management purposes. AFMA may release data on specific
 returns in connection with the investigation and prosecution of offences against the *Fisheries Management Act 1991* and associated
 legislation or under a court order.

Who must complete this Catch Disposal Record

- Parts A and B must be completed by the fishing concession holder (the holder), or an authorised representative, for any boat in respect of which a fishing concession has been issued which requires the completion of this Catch Disposal Record
 - an authorised representative is a person who has been nominated by the holder to complete logbook documents on behalf of the holder. The holder must complete and lodge with AFMA the appropriate nomination form. **Note:** all further references in this Catch Disposal Record to holder/s should be taken to also be a reference to an authorised representative.
- Part C must be completed by the Fish Receiver Permit holder (the fish receiver) immediately upon receipt of the fish and before the fish are placed with any other fish that are not part of the consignment.
- If you have any queries about completing this Catch Disposal Record please contact AFMA Quota Management on (02) 6225 5555 or Freecall 1300 723 621.

When must this Catch Disposal Record be completed?

Except where the fish is received by an 'exempt fish receiver'¹, the holder must accurately determine the weight of the fish and complete Parts A & B of the Catch Disposal Record for every fishing trip and for all species <u>immediately</u> after unloading and before the consignment to which the Catch Disposal Record refers is moved more than 50 metres from the point of unloading. Where the receiver of the catch is located within 50 metres of the point of unloading, the holder must complete Parts A & B <u>before</u> the fish are taken onto the fish receiver's premises.

- Exempt fish receiver where the fish is being received by an 'exempt fish receiver':
 - this Catch Disposal Record book must accompany the consignment to the fish receiver's premises to be completed. Once the Catch Disposal Record is completed for the consignment, and taking into account the holder's obligations in regard to the lodgement of the Catch Disposal Record, the book must remain on board the boat or within a 50 metre radius of the boat
 - where fish are received by an 'exempt fish receiver', the receiver must accurately weigh the fish immediately on receipt at the premises and complete Part C of the Catch Disposal Record. Holders who have not already completed Part B must do so at the 'exempt fish receivers' immediately once the fish are weighed. Once the holders obligations in regard to completion and lodgement of the Catch Disposal Record are completed, the book must be returned from the exempt fish receiver's premises to onboard the boat or a premises within 50m radius of the boat.
- **Two or more receivers** if a catch is split between two or more receivers, the holder must complete a separate Commonwealth Catch Disposal Record for the consignment of fish going to each receiver.
- **Completing transit forms** where more than one vehicle is used to carry a consignment of fish from a vessel to a receiver, the holder must complete a transit form as detailed in the fishing concession nominated to the boat. A transit form must be carried by each vehicle and the last vehicle shall carry the Catch Disposal Record, except where the fish are being carried to an 'exempt fish receiver'.
- Retaining the Catch Disposal Record where the fish are not being transported to an 'exempt fish receiver', the holder must retain this Catch Disposal Record at all times either on board the boat or within a 50 metre radius of the boat until the book is completed. Once completed the holder must keep this book for a minimum period of five years and make it available to AFMA on request.
- **Take-home packs** any fish kept for private or domestic use, consistent with the holder's fishing concession conditions, must be recorded in the comments box of the GAB2C Catch Disposal Record for the relevant trip by entering the words 'Take-home pack' and the species and kilos of fish. If there is insufficient room in the comments box of the GAB2C Catch Disposal Record for that trip the holder must complete a separate GAB2C Catch Disposal Record Parts A and B and enter the words 'Take-home pack' in the comments box of that record to identify the fish as 'take home'. The holder must return Parts A, B and C to AFMA.

Where and how must the forms be submitted?

Note: As each page of this Catch Disposal Record is numbered, any spoiled or incorrectly completed forms must be clearly marked 'cancelled' and returned to AFMA.

- White copy unless directed to be lodged at a location specified by an authorised AFMA Officer (as defined in Section 4(1) of the *Fisheries Management Act 1991*), the holder must forward the white original copy to AFMA within 3 calendar days of the consignment being unloaded.
 - the authorised person completing the form must sign it to certify that all the details are correct on the date of unloading prior to dispatch of the consignment. Holders should not delay lodging or forwarding forms because they are trying to obtain additional quota to cover fish already caught
- Green copy must remain in this book and be made available to authorised Officers upon request.
- Blue and Yellow copies the holder is responsible for ensuring that the blue and yellow copies accompany every consignment of fish in transit and are lodged with the receiver
 - a consignment is defined as whole or part of the catch taken from a single unloading and sent to a single receiver
 - if more that one consignment of fish is sent from one unloading (ie to different receivers), a separate Catch Disposal Record must be completed for each consignment.

FAILURE TO SUPPLY AN ACCURATE AND FULLY COMPLETED CATCH DISPOSAL RECORD FOR ALL FISH LANDED IS AN OFFENCE.

- ¹Note: an 'exempt fish receiver' is a fish receiver whose premises are located within 500 metres of the point at which the boat unloads and who has been granted an exemption by AFMA.
- All other requirements of this Catch Disposal Record apply to exempt fish receivers.

I certify that I have completed the information required in accordance with the instructions and that this information is a complete and accurate record.

Instructions for Fishers

More detailed instructions are located on the front of the writing template.

When completing Parts A and B of this form:

 Recording daily catch and effort logbook book and page numbers:

Record the book and page numbers for this trip, eg if you completed pages 1, 2 and 3 of Logbook 1234, in the space above enter Book No. 1234, Page No.s *from 1 to 3.* If you use more than one logbook, enter the numbers in the separate boxes.

Lodging forms:

Fishers, after completing this form -

- lodge the white copy with AFMA
- leave the green copy in this book
- send the blue and yellow copies with the fish to the receiver of the fish.
- Area

GAB ONLY – Orange roughy catch must be identified as being caught inside the Albany/Esperance area by writing 'Albany', or outside this area by writing 'Outside' in the area column. If you do not do this, catch will automatically be decremented off quota.

 ${\rm SPF}$ ${\rm ONLY}$ - You must record the Management Zone you are fishing in by writing the appropriate letter A, B, C or D in the area column.

Form code - a form code MUST BE entered for each species.

Form Codes:

Scalefish:

GG = gilled and gutted, F = filleted, W = whole, G = gutted, HG = headed and gutted

Shark only:

TR = trunked

FB = trunked with belly flaps removed

Warning to Fishers

An infringement notice may be issued or other prosecution action taken if the concession holder or authorised representative fails to complete and lodge this form in accordance with the instructions.

*In line with government policy all Commonwealth forms to be completed by small business must include a time box indicating the length of time the form took to complete.

Instructions for Fish Receivers

To receive fish from a person who is required to complete this Catch Disposal Record, you must be the holder of a current AFMA Fish Receiver Permit.

Where you have received fish from such a person, you should receive a blue and yellow copy of the Catch Disposal Record. These forms will contain information on the boat name, landing date and place of unloading.

You must also maintain records as detailed in your permit.

Immediately upon receipt of the fish, before any of the fish are processed, and before placing the fish with any other fish that are not part of the consignment, you must weigh the fish accurately and complete all sections of Part C of the Catch Disposal Record. You are legally required to provide this information for all species received.

Completing Part C

You must provide details for each consignment of fish as follows:

- Name enter your name or, if applicable, the name of your company as on your Fish Receiver Permit.
- FRP No. enter your Fish Receiver Permit number.
- Address enter your address or, if applicable, the address of your company.
- Date fish received on enter date when the consignment was received
- Kilos of Fish
 - where the fish have not been processed in any way, enter the individual accurate weight of all the whole fish received of each individual species. **Note:** Accurate weight must be determined by accurate scales
 - where fish have been processed on board the boat, enter the weight received in kilograms of each individual species after processing. **Note:** All species must be identified individually eg rock ling and not ling
 - where one or more species are not listed, provide individual species catch details in the 'Other Species' box in Part C
 - where only part of the catch of species has been processed on board the boat, a separate entry for the processed part of the species should be entered in the 'Other Species' box.
- Form Code for each species received, enter the appropriate form code.
 Form codes are: GG=gilled and gutted, F=filleted, W=whole, G=gutted, HG=headed and gutted. Shark only: TR=trunked, FB=trunked
- with belly flaps removed.
 Shark Carcase No. if applicable, enter the number of shark carcases received
- Comments enter any comments you may have in relation to this consignment
- Certification complete and sign this part to certify accurate completion of the Catch Disposal Record

Lodging Catch Disposal Records

Yellow copy - you must retain the yellow copy of the Catch Disposal Record for your own records for a minimum period of five years.

Blue copy – you must return the completed blue copy of the Catch Disposal Record to AFMA within 3 calendar days of the date on which you receive the fish. Please send the form to:

Data Processing Australian Fisheries Management Authority Box 7051 CANBERRA BC ACT 2610

Fax - If you are required to lodge your catch disposal records by fax please ensure the sheet is reduced to include the whole record or alternatively fax the sheet in 2 stages. Fax the section above the dotted line (see record pages) first followed by the section below the dotted line.

What penalties apply in relation to these Catch Disposal Records?

- The Courts can impose maximum penalties of:
 - \$27,500 upon conviction for the offence of not providing the required information, with a similar penalty for not forwarding returns within the required time
 - imprisonment for up to 12 months upon conviction for the offence of providing information in a record, report, return or other document that is at the time of providing the information known by the person completing the information to be false or misleading in material particular.

If you have any queries about completing this Catch Disposal Record please contact AFMA Quota Management on (02) 6225 5555 or Freecall 1300 723 621.

Instructions for Fishers

Using this Catch Disposal Record book

- There are three parts to this Catch Disposal Record book Parts A, B and C.
- The fishing concession holder (the holder) must complete **all** sections of Parts A and B (the white copy of the form) at the end of **every** fishing trip.
- To complete these sections, place the writing template under the yellow page to prevent marking the next set of forms
- make all entries in blue or black ball point pen only
- no carbon paper is required when completing these forms.
- A new book will be issued to you just before you finish your current one use all of the current book before using the new book. If you do
 not receive a new book you should contact AFMA Quota Management on (02) 6225 5555 or Freecall on 1300 723 621.

Note: The holder must only dispose of fish to the holder of a current AFMA Fish Receiver Permit. Before dispatching a consignment of fish to a receiver, the holder must complete a separate Catch Disposal Record page for **each** consignment of fish sent to a receiver.

Completing this Catch Disposal Record book

Part A

- Boat Name enter the name of the boat the fish were caught from.
- Distinguishing Symbol enter the distinguishing symbol of the boat the fish were caught from.
- **Fishery** circle or write in which fishery you are operating in.
- Method enter what method you are using to catch fish (eg demersal trawl, mid water trawl).
- Concession number enter the number of the fishing concession you are fishing on. This is the number of your Statutory Fishing Right, Fishing Permit or Foreign Fishing Licence.
- Duration of Trip enter the duration of the trip. For example, if a boat leaves to fish on 28 March 2007 and returns on 1 April 2007, fill this section in as 28/3/07 to 1/4/07.
- Date/time of Unloading enter the date and time at which unloading commenced.
- Port of Unloading enter the port of unloading (eg Adelaide, Ceduna, Albany).
- Receiver Consignment Sent To enter the name of the receiver of this consignment here. A consignment is defined as the whole or part of the catch taken from a single unloading and sent to a single fish receiver.
- Method used to determine accurate weight enter the method you used to determine the accurate weight (eg no. of bins, braile scales etc).
- Total accurate weight of consignment enter the total accurate weight of the consignment.
- Total number of boxes/bins consigned enter the number of boxes or bins consigned to the receiver.
- Whole/part of Catch circle 'W' for whole or 'P' for part to identify which part of the catch was consigned to the fish receiver
- Name of Transporter if the fish has been transported from the boat to the receiver, enter the name of the transporter.
- Type of Vehicle if the fish has been transported from the boat to the receiver, enter the type of vehicle (eg Mazda truck).
- Vehicle Reg. No. enter the registration number of the vehicle (trailer reg no. if transported in a trailer).
- Number of vehicles used if more than one vehicle, circle the approriate number. You must send a separate transit form with each load. The transit book you should use is specified on your fishing concession.
- Date/time consignment left from point of unloading enter the date and time the consignment left from the point of unloading.
- Daily catch and effort logbook page numbers enter your daily catch and effort logbook number and the page numbers relevant to the page(s) of the Catch Disposal Record. For example, if you are using daily catch and effort logbook number 1234 and pages 1,2 and 3 of the logbook relate to the catch that you are recording in your Catch Disposal Record then you must fill out the box with the details of the book and page numbers for the logbook.
- Time to complete form enter an estimate of the time taken to complete this form.

Part B

- Species/species code where one or more species are not pre-printed on the page, individual species catch details should be entered in the 'Other Species' box.
- Kilos of fish where the fish have not been processed in any way, enter the individual accurate weight of all the whole fish of each individual species landed. Where fish have been processed on board the boat, enter the weight received in kilograms of each individual species after processing. Where only part of the catch of species has been processed on board the boat, a separate entry for the processed part of the species should be entered in the 'Other Species' box. You should identify individual species, eg rock ling must be identified as rock ling and not ling.
- Mixed Species where the total amount of a single non-quota species is less than 10kg, this species may be combined with another nonquota species of the same or less weight (ie 10kgs) and recorded under the category of 'mixed fish'. Where the total amount of a single non-quota species exceeds 10kg, that species must be recorded individually in the 'Other Species' section. All quota species must be recorded separately and not mixed with any other species.
- Form Code for each species caught, enter the form code specified on the Catch Disposal Record page, ie: W = Whole, H & G = Headed and Gutted.
- Shark Carcase No. if applicable, enter an accurate count of carcase numbers for all shark landed.

Area (if applicable) – to be completed for species managed as separate geographic stocks.
 Note: GAB operators ONLY – Orange roughy catch must be identified as being caught inside the Albany/Esperance area by writing 'Albany' or outside this area by writing 'Outside' in the area column. If you do not do this, catch will be assumed to have been caught inside the Albany/Esperance area and automatically decremented off your quota. (see GAB example page).
 Note: SPF Operators ONLY - You must record the management Zone (Area) in which you caught the fish by writing the appropriate letter (A, B, C or D) in the 'Area' column (see SPF example page).

Submitting copies of Catch Disposal Records:

 White copy – you must complete and forward this copy to AFMA, or at a location specified by an authorised AFMA Officer (as defined in Section 4(1) of the *Fisheries Management Act 1991*), within 3 calendar days of the consignment being unloaded. When forwarding to AFMA, please send to: Data Processing,

Australian Fisheries Management Authority,

Box 7051,

Canberra BC ACT 2610.

- Green copy you must retain this copy in the book for your records. It must be available to AFMA Officers if requested.
- Blue and yellow copies you must send these copies with every consignment of fish in transit and lodge them with the fish receiver. Note that these copies are lightly glued together so that they will not become separated in transit.
- Fax If you are required to lodge your catch disposal records by fax please ensure the sheet is reduced to include the whole record or alternatively fax the sheet in 2 stages. Fax the section above the dotted line (see record pages) first followed by the section below the dotted
