1. Introduction

This is the 28th annual report of the Northern Territory Fisheries Joint Authority (NTFJA). This report details the activities undertaken during the period 1 July 2019 to 30 June 2020 as well as information on the status of the fisheries.

The NTFJA has responsibility for the management of the following fisheries in all waters adjacent to the Northern Territory:

- Timor Reef Fishery;
- Demersal Fishery;
- Offshore Net and Line Fishery.

2. Enabling legislation

The NTFJA was established in February 1983, under the then Commonwealth legislation (Commonwealth *Fisheries Act 1952*) to provide for the Commonwealth and the Northern Territory to jointly manage declared fisheries and fisheries resources in waters adjacent to the Northern Territory. With the passage of the Offshore Constitutional Settlement Agreement of 1987, management of the Northern Territory (NT) pearl oyster fishery passed to the NTFJA.

On 3 February 1995, the NTFJA, subject to the provisions of the Commonwealth [Fisheries Management Act 1991](#) and the Northern Territory [Fisheries Act 1988](#), assumed responsibility, in waters adjacent to the NT, for the Demersal, Timor Reef, Offshore Net and Line and Finfish Trawl Fisheries (finfish trawl fishery merged with demersal fishery in 2012). A copy of the arrangement is found at Attachment A. Day to day administration of these fisheries is provided by the Fisheries Division of the NT Department of Primary Industry and Resources (DPIR).

3. Report on the status of fisheries managed by the Joint Authority

Tables 1 and 2 (below) present a summary of the catches and status of the fisheries managed by the NTFJA. Detailed catch, effort and status information for each fishery are compiled annually and presented in the Northern Territory Fishery Status Reports, available for download at:

<https://dpiir.nt.gov.au/fisheries/fisheries-strategies,-projects-and-research/fisheries-research>

And in the Status of Key Australian Fish Stocks Reports at:

<http://fish.gov.au/reports/species>

The **Demersal Fishery** targets mainly red snappers (*Lutjanus malabaricus*, *L. erythropterus*) and goldband snappers (*Pristipomoides spp.*). Painted sweetlips (*Diagramma pictum*) and cods (*Family Serranidae*) are key byproduct species. Fish traps and finfish trawl gear are the main fishing methods used in the fishery.

The **Timor Reef Fishery** primarily targets the higher-valued goldband snapper (*P. multidentis*) and other *Pristipomoides* species. Significant quantities of red

snappers (*L. malabaricus*, *L. erythropterus*), red emperors (*L. sebae*) and cods (Family *Serranidae*) are also harvested. The main fishing method used is fish traps, however between 2014 and 2018, a finfish trawl trial was conducted in the Timor Reef Fishery. This resulted in an increase in red snapper catch which is typical of trawl gear (Table 1).

The **Offshore Net and Line Fishery** targets black-tip sharks (*Carcharhinus tilstoni*, *C. limbatus* and *C. sorrah*) and grey mackerels (*Scomberomorus semifasciatus*). A variety of other sharks and pelagic finfish are also caught as byproduct.

Exploitation by the Fishing Tour Operator and recreational sectors is considered to be low across all three fisheries.

According to the Status of Key Australian Fish Stocks Report 2019, the fisheries for each of the target species listed above have been assessed to be sustainable at recent harvest levels (Table 2). In all of these fisheries, catches in adjacent Indonesian waters may be significant, and impacts on the Australian fisheries will be dependent on connectivity (fish movement and mixing) between the fisheries. This issue is elaborated upon in the Northern Territory Fishery Status Reports and in the Status of Key Australian Fish Stocks Reports.

4. Report on activities of the Joint Authority during the reporting period

An annual meeting of the NTFJA is held in the first or second quarter of each financial year (reporting period) or as required. At each meeting key issues within the NTFJA fisheries are discussed and decisions regarding these issues may be made. Attachment B contains the 2019 meeting minutes and decision record. The Commonwealth and Territory members of the NTFJA for the 2019/20 reporting period, along with the deputies for both members, are listed in Table 3.

1. PROCEDURAL MATTERS

Officials of the Commonwealth and NT DPIR met on 28 November 2019 to discuss current issues relevant to the Northern Territory Fisheries Joint Authority (NTFJA). Discussion and recommendations from the meeting are detailed below.

1.1 *Identification of Member's Deputies, Secretary and Delegations*

The identification of present delegates and deputies to the meeting was noted, as was the appointment of a secretary and the identification of observers.

Officials of the Commonwealth and NT DPIR confirmed that their status as members' deputies was in order. Ms Rebecca Oliver, Department of Primary Industry and Resources (NT DPIR) was appointed as the secretary to the NTFJA. Observers at the meeting were noted and are recorded as present in this record.

1.2 Confirmation of Agenda

Members confirmed the agenda.

1.3 Record of Decisions arising from the NT Fisheries Joint Authority (NTFJA) meeting of 18 October 2018

The Record of Decisions arising from the NTFJA meeting of 18 October 2018 was reviewed and was deemed an accurate reflection of decisions taken.

2. MATTERS FOR CONSIDERATION / INFORMATION

2.1 Update on status of NTFJA fisheries

2.1.1 Timor Reef Fishery (TRF)

Members noted the information provided in the background paper attached to the agenda and in particular that the trawl trial in the TRF was completed in December 2018. Future trawl arrangements in the TRF were being considered by the Offshore Snapper Fisheries Management Advisory Committee as part of the new management framework being developed for the offshore snapper fisheries.

2.1.2 Demersal Fishery (DF)

Members noted the information provided in the background paper attached to the agenda. It was noted that the development of a contemporary management framework and harvest strategy for the offshore snapper fisheries remained a key priority for NT DPIR, with the framework anticipated to be finalised and rolled out in 2020, subject to approval by the NTJFA. Officers from NT DPIR and AFMA had been liaising to progress the development of the arrangements.

The NT Deputy reaffirmed support to transition the offshore snapper fisheries to single jurisdiction as soon as practicable and advised it would incorporate the outcomes into the proposed new management framework.

Members noted that the current WTO accreditations for the DF and TRF would expire on 13 December 2019. Both fisheries were currently undergoing reassessment under their existing management frameworks by Department of Environment and Energy to continue their approval to export.

2.1.3 Offshore Net & Line Fishery (ONLF)

Members noted the information provided in the background papers attached to the agenda. It was noted that as of December, the ONLF would have been operating under the new management framework, which included the introduction of a Harvest Strategy, for 12 months.

The first assessment of the ONLF under the Harvest Strategy was scheduled for early 2020, to be undertaken by the recently established Offshore Net & Line Advisory Group.

2.2 Review of compliance arrangements

The NT Deputy advised that NT DPIR was undertaking a review of compliance arrangements for NT fisheries. Members noted that NT Water Police provide compliance services for NT fisheries, with AFMA providing services for some fisheries under MoUs. A Working Group had been established to assess the capabilities and capacities of compliance providers to address risks identified in the compliance risk assessment undertaken for NT fisheries. The Working Group, chaired by Dr. Nick Rayns, met for the first time on 27 November 2019.

A Report would be compiled by Dr. Rayns and was expected to be completed by March 2020. In the interim, NT DPIR would continue to use a number of different service providers.

3. JOINT AUTHORITY ANNUAL REPORTING

Members noted that the 2018-19 JA Annual Report had been prepared and would be circulated to Deputies to sign out-of-session, prior to it undergoing final print review and publication. Copies of the report would be sent to NT DPIR once available.

4. OTHER BUSINESS

No other business was tabled.

5. NEXT MEETING

Members agreed the next meeting of the NTFJA would be held in conjunction with the Australian Fisheries Management Forum meeting to be convened in September/October 2020.

6. CLOSE

The meeting closed at 1:58 pm.
