 - (d) A breach, suspension or cancellation of this concession is a breach, suspension or cancellation of that other concession.

TRANSHIPPING LIMITATION

- 9. Unless the boat nominated to this concession is also nominated to a carrier boat permit granted for the same fishery as this concession, the holder must not carry fish taken with the use of another boat.

- 11. Transshipment of fish or fish product, either to or from this boat, is prohibited, unless done under the following conditions:
 - (a) The catcher boat (that took catch through fishing) and the carrier boat (which will receive

catch via transhipment from the catcher boat) must both be nominated to separate ETBF boat SFRs.

 - iii. No fishing was conducted on the high seas during the fishing trip.

Note: AFMA’s intent in setting rules in relation to transshipping is that each boat’s catch must be reported on a separate CDR which must accompany that catch on the carrier boat.

GEAR LIMITATION

- 12. This concession authorises the use of the following gear only:
 - (a) Minor line as defined in Part 1, section 1.3 of the Eastern Tuna and Billfish Fishery Management Plan 2010.

SPECIES LIMITATIONS

- 13. This concession does not allow fishing for Southern Bluefin Tuna (*Thunnus maccoyii*). Any take of Southern Bluefin Tuna is to be in accordance with the *Southern Bluefin Tuna Management Plan 1995*.
- 14. If the concession holder takes a Northern Bluefin Tuna they must:
 - (a) Report to AFMA at email northernbluefin@afma.gov.au (or to fax 02 6225 5439 if email is not possible) at least one hour prior to the boat mooring or anchoring at port the following information:

 - ii. if the Bluefin Tuna was taken south of 28 degrees south, between 1 January and 1 May and was greater than 200cm, it may be deemed to be a Northern Bluefin Tuna; or
 - iii. If the Bluefin can not be deemed a Northern Bluefin in part c(i) or c(ii) the concession holder must;
 - a) Obtain genetic testing showing that the fish in question is a Northern Bluefin (AFMA will then deem the fish a Northern Bluefin); or
 - b) For fish exported to the Tokyo Metropolitan Central Wholesale Market (Tsukiji market), document the fish as a Bluefin Tuna on the relevant Catch Disposal Record (CDR) and provide the documentation from the Tokyo Metropolitan Central Wholesale Market (Tsukiji market) showing the fish was sold as a Northern Bluefin Tuna (AFMA will then deem the fish as a Northern Bluefin).

Should the landed tuna be deemed a Southern Bluefin Tuna (either by the holder or through identification) the holder must comply with all requirements of the *Southern Bluefin Tuna Management Plan 1995*.

15. Once AFMA notifies the holder that 40 tonnes of Northern Bluefin Tuna (*Thunnus orientalis*, PBT) has been taken in the Eastern Tuna and Billfish Fishery (ETBF), the holder must release any PBT that are in a live and vigorous state on arrival at the fish door for the remainder of the season to which the notification applies. For the remainder of the season for which the notification applies, PBT that are dead on arrival at the fish door may be landed (retained). As far as practicable live PBT that are to be released must not be gaffed.
16. The holder must ensure where practical any PBT that are to be released or discarded must be done so at the fish door in full view of the e-monitoring system.
17. Once AFMA publishes a notice stating that 35 tonnes of longtail tuna (*Thunnus tonggol*) have been taken in the Western Tuna and Billfish Fishery (WTBF) and/or the Eastern Tuna and Billfish Fishery (ETBF), the holder must not take more than 10 longtail tuna on any subsequent trip until the notice is revoked by AFMA.

For the purpose of determining if the holder is over quota under this condition, any acquisition of a quota species may only be deemed to have been acquired up to 28 days prior to the date of registration of that acquisition of that quota species.
- (e) If this concession is suspended, unless the holder has acquired and AFMA has then recorded (but may not deem) an amount of uncaught quota for each quota species in the fishery, this concession may, under this condition, again be suspended upon expiration of the earlier suspension.
- (f) It is the obligation of the holder to record and determine when any quota species amount exceeds the total amount recorded by AFMA.

In these conditions:

Acquire means receiving statutory fishing rights by registering a dealing by which an amount of statutory fishing rights are permanently or seasonally transferred to the holder; and **acquisition** has a comparable meaning.

Quota species has the same meaning as quota species in the applicable management plan for which this concession has been granted and established under the *Fisheries Management Act 1991*.

Landed means the date any quota species was disposed of to an AFMA licensed fish receiver permit holder as recorded on the relevant catch disposal record; and landing has a comparable meaning.

28. The holder accepts concurrent liability for all conduct by its servants or agents infringing the *Fisheries Management Act 1991* (or the Regulations, Management Plans or concession conditions made by virtue of that Act) who may be engaged by the holder to conduct on the holder's behalf activity under this concession.
29. Liability for the conduct of the holder's servants or agents arises, even if the conduct may be, or actually is, beyond the scope of the servant or agent's actual or apparent authority where it is a breach that occurs during the conduct of activity authorised by this concession.
30. The holder may avoid concurrent liability for conduct whilst conducting activity under this concession if, but only if, the holder can establish that the infringing conduct could not possibly have been prevented by any action or precaution that the holder might have reasonably taken.
31. The giving of an indemnity by the servant or agent to the holder for any penalties incurred by the holder, for infringing conduct by the servant or agent is not, of itself, a reasonable precaution to prevent infringing conduct.
32. The holder must ensure the master of the boat fishing under the authority of this concession is nominated as an authorised agent for the holder before any fishing operation may take place.
33. The holder must ensure the authorised agent signing the determined *Daily Fishing logbook page was the master of the boat (skipper) at the time the recorded fishing operation took place.

NAVIGATING IN CLOSED ZONES

38. AFMA may suspend this concession in accordance with this condition, pursuant to section 38(1)(c) of the *Fisheries Management Act 1991*, if it reasonably appears by VMS transmission from the nominated boat, that there is a failure by that boat while in a closed zone for the purposes of regulation 85 of the *Fisheries Management Regulations 2019*, to meet the exempting provisions of regulations 86(2), or (3). Such suspension will then continue until the concession holder provides a full written explanation, to the satisfaction of the delegate responsible for issuing that suspension, of the lawful reason for the boat being in that closed zone at that time, or until the expiration of the suspension under sub section 38(2); whichever is the earlier.
