

December 2018

Dear concession holder

### **Extra time to transition to e-logs**

Following a request from Tuna Australia Ltd, operators in the Eastern and Western Tuna and Billfish fisheries will have more time to transition to e-logs.

Tuna Australia is currently trialling e-log software on several boats in the tuna longline sector, with the aim to incorporate industry feedback into the e-log products offered to fishers. Completion of this work is expected in May 2019, by which time industry will be advised of the new date for moving to e-logs.

Operators that are currently using e-logs, or are looking to transition to using e-logs prior to this may still continue to do so.

If you would like to discuss the change in timing, please contact me on 02 6225 5561. If you would like to know more about the project being run by Tuna Australia please contact David Ellis on 0427 837 966.

Yours sincerely

Andrew Powell
