ABOUT THIS CATCH DISPOSAL RECORD

This Catch Disposal Record is designed to record accurate information about catches from the Bass Strait Central Zone Scallop (BSS) Fishery and the Southern Squid Jig (SSJ) Fishery. To operate in a Commonwealth Fishery you must hold the relevant Fishing Concession.

- **it does not replace the requirement to complete daily catch and effort logbooks.** Information displayed on this Catch Disposal Record will be used for fisheries management purposes. AFMA may release data on specific returns in connection with the investigation and prosecution of offences against the *Fisheries Management Act 1991* and associated legislation or under a court order.

Who must complete this Catch Disposal Record?

Part A and B must be completed by the fishing concession holder (the holder), or an authorised agent, for any boat in respect of which a fishing concession has been issued which requires the completion of this Catch Disposal Record.

- an authorised agent is a person who has been nominated by the holder to complete logbook documents on behalf of the holder. The holder must complete and lodge with AFMA the appropriate nomination form.

Note: all further references in this Catch Disposal Record to holder/s should be taken to also be a reference to an authorised agent.

If you have any queries about completing this Catch Disposal Record please contact AFMA Data & Licensing Section on 1300 723 621.

When must this Catch Disposal Record be completed?

The holder must accurately weigh the fish and then complete Part A and B of the Catch Disposal Record for every fishing trip immediately after unloading and before the consignment to which the Catch Disposal Record refers is moved more than 50 metres from the point of unloading.

Retaining the Catch Disposal Record – The holder must retain this Catch Disposal Record at all times either on board the boat or within a 50 metre radius of the boat until the book is completed. Once completed the holder must keep this book for a minimum period of five years and make it available to AFMA on request.

Where and how must the forms be submitted?

Note: As each page of this Catch Disposal Record is numbered, any spoiled or incorrectly completed forms must be clearly marked 'cancelled' and returned to AFMA.

White copy – unless directed to be lodged at a location specified by an authorised AFMA Officer (as defined in Section 4 (1) of the *Fisheries Management Act 1991*), the holder must forward the white original copy to AFMA with 3 calendar days of the consignment being unloaded together with relevant daily catch and effort logbook pages.

- the authorised person completing the form must sign it to certify that all the details are correct on the date of unloading prior to dispatch of the consignment.

Holders should not delay lodging or forwarding forms because they are trying to obtain additional quota to cover fish already caught.

Green copy – must remain in this book and be made available to authorised Officers upon request.

FAILURE TO SUPPLY AN ACCURATE AND FULLY COMPLETED CATCH DISPOSAL RECORD FOR ALL FISH LANDED IS AN OFFENCE.
